## SUMMARY

Experienced Application Support Desk at Tata Consultancy Services with 2 years and 8 months of expertise in troubleshooting and resolving technical issues. Knowledgeable in Web Development and various tools. Applying for a position as Frontend Developer at IT to utilize my skills and get experience in developing user-friendly Applications.

## EXPERIENCE

### Application Support Desk

Tata Consultancy Services

September 2019 - June 2022, Nagpur

- Started as an information processing specialist in DHL project under UK Import, where I use to validate shipments in AS 400 (Citrix domain) and generate revenue for the company.
- After that I was promoted as mentor where I use to handle team and audit their shipments internally.
- After 6months I was promoted to Ultimatix project where we used to give support for TCS employees and client.
- In Citrix process we use to work on Global help desk, it is a ticketing tool where we use to give support for password recovery, timesheet fill management, Ultimatix portal lock, Ultimatix portal recovery, Outlook issue, Microsoft Teams issues.

## PROJECTS

### Notes Application

(Individual)

- This Notes Application is a software tool that allows users to *create, edit, and manage text-based notes*. It's a simple yet effective way to write Notes of daily routine or for any other work.
- The application's front end will be built using React components, including features like note creation, editing, deletion.
  - **Build With:** *HTML, CSS, Bootstrap, JavaScript and React-JS.*

### Weather Application

(Individual)

- This is the Weather Application where User can to enter a city name to fetch weather data for that location.
- Display relevant weather information such as temperature, humidity, wind speed, and conditions (e.g., sunny, cloudy, rainy) for the location.
  - **Build With:** *HTML, CSS, Bootstrap, JavaScript and React-JS.*
